

EDGE-X DIGITAL ASSET

THE EDGE-X BRIDGE

EDGE-X is a digital payment token that acts as a liquidity bridge to transfer value between assets on the Ethereum network, other blockchains, and secondary markets. Investors can convert digital assets to EDGE-X and vice versa.

By acting as a bridge, EDGE-X provides enhanced liquidity in the ecosystem. EDGE-X can also be used within the EDGE196™ Global Marketplace and for accessing services from ecosystem mentors.

EDGE-X VALUE

EDGE-X will open for purchase via the Genesis Offer with a fixed base price. EDGE-X purchased in the Genesis Offer will be subject to a holding period of 366 days.

REGULATION

EDGE-X holders, whether direct purchasers EDGE196™ or recipients from a holder, must pass KYC and AML review prior to release of trading restrictions.
